OUR 80th YEAR

During the growing season just passed, we were blessed with plenty of sunshine and an abundance of rain. The quality of our material has never been better.

Large quantities of well grown nursery stock at competitive prices are now available. Your order is earnestly solicited.

We have decided, after careful consideration, to issue only one Wholesale Price List for Fall 1958 and Spring 1959. Subsequent bulletins may be issued to cover any major price or stock changes.

Visitors are always welcome at our Nursery. Our location, reasonably near both Philadelphia and New York City, is easily reached over an excellent system of modern highways. Complete directions on Page 88.

HARDY SHRUBS

Evergreen and Deciduous

We have the largest supply of splendid, well grown Hardy Shrubs for distribution Fall 1958 that we believe we have ever had at any one time since this business was established over eighty years ago.

All of our Shrubs are graded according to, or above, the Standards of the American Association of Nurserymen.

Orders for less than ten plants of a variety, or grade, will be invoiced at an advance of 25% over the ten rate. This does not refer to varieties listed as balled and bur-lapped, our prices for which, when ordered in lots of less than 10 of a variety, are 10% above prices listed for lots of 10.

Prices quoted do not include cost of packing. See Terms and Conditions of Sale on inside of back cover.

One of our many blocks of splendid, well grown two year old Shrubs.

10 100

ABELIA grandiflora (Glossy Abelia). 6 to 8 ft. Carries tender bell-shaped flowers throughout entire Summer among bright semi-evergreen foliage. Not absolutely hardy North of Philadelphia.

LIGUSTRUM (Privet)

10 100 1000

Whether or not it be true what various people declare, that we are the largest grower of Privet in the world, we know it is a fact that no others can surpass us in the quality of the Privet which we grow. Each year, we grow from two million to three million sturdy, beautifully rooted plants of California Privet.

Amurense (Amur Privet). 12 to 15 ft. Upright growing, with olive green leaves. Hardest and best hedge plant for severe climates.

Ibota regelianum (Regels Privet). 5 to 6 ft. The aristocrat of Privets. This beautiful, rather spreading shrub, thrives under varied conditions even where smoke and dust are present, thus making it popular for city planting. A splendid sort for producing a fairly low, compact hedge and invaluable for shrub groupings. We believe this year, that we have the largest supply of well-grown Regels Privet that can be found anywhere in this country. They are stocky, well branched, splendid plants.

HARDY PERENNIAL PLANTS

This season, we have about the largest supply of well grown Perennials that we have ever had at any one time, and our assortment includes the very best varieties. Each year, we test numerous novelties, but we do not offer such varieties to our patrons until after we have become firmly convinced that they possess real merit. We also continue to grow practically all of the comprehensive list of dependable Hardy Perennial plants that we are growing. (R), following descriptions, indicate that such varieties are especially adapted to the rock garden.

Prices refer to sturdy, field grown plants (unless stated otherwise), such as can be depended upon to produce quick and satisfactory results.

Orders for less than ten plants of a variety, or grade, will be invoiced at an advance of 25% over the ten rate.

Hardy Perennials are splendid for planting in Rock Gardens, as well as in perennial borders.

Terms and Conditions of Sale

The prices published in this list cancel those in all previous lists. They are based on present market conditions and are subject to change without notice.

WARRANTY — Lovett's Nursery, Inc., warrants to the extent of the purchase price that nursery stock sold is true-to-name and as described within recognized tolerances. Seller gives no other or further warranty, expressed or implied, and will, under no circumstances, be liable for more than the invoice value at the time of purchase. A Certificate of Inspection is attached to each shipment.

PRICES—These prices apply only to orders placed by bona fide Nurserymen, Florists and Dealers. Not less than 5 of a variety and size will be supplied at the 10 rate, not less than 25 at the hundred rate, and not less than 250 at the thousand rate, except Hardy Shrubs, Page 1, and Hardy Perennials, Page 62.

SPECIAL SELECTION — All stock, when specially selected on the Nursery, will be sold at prices commensurate with the value of the specimens chosen.

PACKING — All stock is carefully packed in boxes or bales, for which a charge will be made based on actual cost of packing material used. This packing charge will apply to orders which have been paid for in advance of shipment, as well as charge orders. After delivery to forwarders, all articles travel at the risk of the purchaser, and if loss or delay occurs, the carriers alone are responsible.

CLAIMS—If claims are made upon receipt of goods they will be carefully and cheerfully examined and adjusted. Any claims made 15 days or more after receipt of goods will not be entertained.

TERMS—30 days net, 2% discount 10 days, from date of shipment. Interest at 6% per annum to be paid after maturity. These terms are offered to those of established credit. Cash, security, or satisfactory references are required from customers not known to us. C.O.D. orders must be accompanied by 25% of the purchase price. When ordering please use printed stationery or enclose business card.
